Scored in the Top 10% on the "Fundamentals of Engineering" exam.

Perfect score on Math's PSU 2014 (National University Selection Test)

LATAM (external) (Santiago, Chile)
Fullstack Engineer — Apr 2024 - Present

- **Owned the EMA experimentation frontend (React/Next.js)**, consolidating scattered tools (**GCP**) into a single self-serve workspace with interactive Kanban and one-click rollouts, enabling anyone to run experiments end-to-end.
- **Drove cross-functional delivery with PM, design, frontend, backend, and end-users**, coordinating roadmap, specs, and interfaces to align priorities, streamline collaboration, and ensure a consistent, high-quality product experience.

Reversso (Santiago, Chile)
Frontend Engineer — Feb 2023 - Nov 2023

- **Developed new analytics section,** that allowed the companies to see historical data of their revenues, volume of tickets, client information, etc all through interactive graphs.
- Updated and expanded main page of company, **created Alliances, FAQ and Resources sections with interactive displays** and adapt depending on country.

Blissway (YC) (Denver, CO, US)
Frontend Engineer — Apr 2022 - Dec 2022

- **Created in-house tool** to make possible the **review of tens of thousands of photos of vehicles** that passed through the I-70 highway.
- Improved the dashboard of the company, **adding new functionalities, refactoring bad code practices and improving the design**

Pinflag (Santiago, Chile)
Frontend Lead Engineer — Sep 2021 - Mar 2022

- **Led the whole Front-End team of Pinflag**, multiple apps that aim to connect the whole e-commerce/courier/store/client ecosystem.
- Developed an app with **MapBox** to display and interact with **over a thousand of Pick-Up and Drop-Off points across all of Chile**.

Facebook (Menlo Park, CA, US)
Frontend Engineering Intern — Jan 2020 - Apr 2020

- Created a new section in Facebook's internal recruiting tool, implementing new functionalities to **speed up the recruitment process for over 2.5 million applicants all over the world.**
- Hosted test and review sessions to iterate in the new functionalities; in the end the **product was used by 100% of Facebook recruiters.**
